## TurboSite Field Report

Project Number: 06142013

---

Project Name:	commercial test	Date:	June 14, 2013
Location:		Time:	
Report By:	Doug Cochran	Weather:	

---

### Project Notes:

Testing TurboSite version 1.3 with PDF report. This is going to be an awesome feature that basically complete TurboSite functionality. Wait till the markets sees this!

## MODEL.007 Duct Work

### Notes:

TurboSite is reinventing the fieldwork and job site analysis workflow. Now the process of documenting, recording, and reporting construction or field data can be done in a much more organized way.

## MODEL.008 Interior at Suite D

### Notes:

To calibrate the GeoWalk feature with your drawing, simply select the Calibrate button and define 2 physical points at the job site in relation to your drawing. For example, stand at one corner of your building, pin point in your drawing current position, walk to other corner of building, pick second pin point in drawing and select OK check mark. Done, it's that easy!
